When our doctors and nurses
needed more PPE to keep
them healthy and safe

**Our Representative
Bert Reeves delivered**

Call Representative Reeves and thank him for voting for
incentives to produce PPE here in Georgia: 404.651.7737

Bert Reeves helped pass a new law to incentivize the production of medical supplies **here in Georgia**

Our nurses and doctors, heroes on the front lines of the COVID-19 pandemic, need protective equipment. And our patients need medicines, regardless of the disease they're facing.

Unfortunately, many of the supplies we need have been produced almost exclusively in communist China. This has resulted in life-threatening shortfalls, and an increased dependence on an adversary for basic needs.

That's why State Representative Bert Reeves helped pass legislation this year to provide tax incentives to companies who step up to produce these critical supplies here in Georgia.

Call Representative Reeves and say thank you for putting Georgia first: 404.651.7737
